Oracle SOA and OIC Integration Resource

The Oracle SOA and OIC resource will be a key member of the implementation services team, will drive out innovative solutions. Projects are usually time sensitive and business critical, therefore strong work ethic, sense of urgency and commitment to quality work is required

- 7+ years of experience implementing Oracle Integration solutions
- Oracle SOA Suite - Oracle SOA Suite (BPEL , OSB, OWSM, Oracle Business Rules)
- Oracle Integration Cloud (OIC) design and development experience is must
- Scripting SOA and OSB deployment in ANT, MAVEN
- Experience working with JCA adapters (File, DB, AQ, JMS)
- Experience with Web Services, XPath, XQuery/XSLT, XML, XSD
- Experience in Object Oriented Development
- Ability to write QA documents (test plans, procedures, test reports) and test integrations using SOAPUI or any other SOA testing tools.

We are:

- Bright, quick learners who display confidence in our abilities and typically present ourselves as being self-assured
- Resilient and emotionally steady, generally capable of tolerating the frustrations of everyday work and life
- Natural team players who enjoy collaborating with others to get the job done
- The ones to initiate social interaction and readily express our views and opinions
- Detail-oriented
- Organized and appreciate precision in our work as well as the work of others

Nice to have:

- SQL/PLSQL.
- Exposure to Oracle SaaS.
- Java
- SOAPUI/POST Man Webservice Testing
